Provided that a substantially constructed and hermetically closed metal case, containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition, shall be deemed to be a "manufactured firework" and not a "firework composition."

Amorces, whether in the form of toy caps or igniting tapes containing not more than 70 grains of explosive composition to every 1,000 dots of such composition.

Aluminium Torches
Electric and other Sparklers
Magnesium Torches
} Provided the composition contains no chlorates.

Chinese Crackers made from a gunpowder or nitrate mixture containing no chlorates.

Distress Signal Rockets

Explosive Discs.
Giant Disc Amorces.
} each consisting of a recessed disc, square or rectangle of cardboard containing a composition in the recess covered with paper and containing not more than 0·4 grains of composition per disc. The discs when packed for conveyance shall be in stout cardboard boxes the material being not less than one-twentieth of an inch thick, each containing not more than twenty-four discs. The discs shall be inserted in perforations in a cardboard sheet one-sixteenth of an inch thick attached to the bottom of the box and covered with a layer or sheets of corrugated paper of a total thickness of not less than one quarter of an inch. The size of the box shall be such as to allow not less than three-quarters of a square inch of superficial space per disc. Provided also that not more than 13,824 discs shall be packed together in one outer package and the said outer package shall contain no other fireworks.

Lances, provided the composition does not contain at the same time chlorates and sulphur or sulphides or aluminium.

Magic Pebbles, each consisting of a pebble or clay ball, not more than two inches in diameter and covered with not more than 35 grains of a composition consisting of chlorate of potassium, sesqui sulphide of phosphorus, gum arabic, carbonate of magnesium, carbonate of calcium and oxide of iron;

Provided that the proportions of chlorate of potassium and sesqui sulphide of phosphorus do not exceed 30 per cent and 15 per cent, respectively, and the proportion of gum arabic is not less than 25 per cent of the finished mixture.

Provided also that the composition is protected by a covering of paper.

Marcons, made from a gunpowder or nitrate mixture containing no chlorates.

Pyrotechnic Matches

Rockets,
Roman Candles
Wonder Candles
} made from a gunpowder or nitrate mixture containing no chlorates and provided the stars do not contain at the same time chlorate and sulphur, or sulphide or aluminium and stars containing a chlorate are separated from contact with the gunpowder or nitrate mixture.
